Bachelor of Science in Information Technology (Multimedia Technologies)

Lyceum of the Philippines - Batangas

2019-2024

SUMMARY

To continuously enhance and develop my skills while providing valuable contributions which can help further develop a career path that can establish stronger connections.

WORK EXPERIENCE

Back-end Intern

Marvill Web Development PH   February 2024 – May 2024

- Developed dynamic web applications with PHP/Laravel, including robust user management, authentication, and role-based access control, ensuring secure access management and system usability.

- Designed visually appealing websites using Figma and WordPress Elementor, integrating innovative design and functionality to enhance user experience for clients and company projects.

Operations Associate

Somura PH   April 2021- July 2021

- Managed online stores on Shopee & Lazada, enhancing product representation with detailed descriptions and high-quality images to boost customer engagement.

- Developed and maintained accurate inventory systems across virtual and physical platforms, utilizing Excel for monitoring employee performance metrics and inventory levels to drive data-driven decisions.
